Media Advisory

Parks, Arizona residents plan meeting to discuss negative impact of mining project on Kaibab National Forest

What: Community meeting regarding the Drake Concrete mining project

Who: Parks' residents and interested parties

When: Saturday, September 2 at 1:30 P.M.

Where: Maine School Gymnasium, 10 N Spring Valley Rd., Parks, AZ

Why: Residents are concerned about a Pozzolan mining project by Drake Concrete on 1,416 acres of Kaibab National Forest Land located in Parks west of Spring Valley Road. Development of this site into an open pit mine will result in loss of beautiful habitat and an immense increase of mining truck traffic down Spring Valley Road through the residential area of Parks.
